

Celebrating Individuality in the Comfort of Home

We believe that our clients deserve respect, honesty and compassion. That's why our mission is to:

- Respect our clients' independence
- Support their choices
- And provide the high quality care they need to live safely at home.

Compassionate Care | Proven Results

Proven Results

- We are the only Syracuse home care agency to have a third party regularly measure our customer service and client satisfaction.
- Recognized as one of the best agencies in the country through Home Care Pulse's Best of Home Care award.
- Certified by Caregiver Quality Assurance (CQA), a program ensuring home care agencies hire only top tier caregivers.
- Provide a client/companion matching process that has been refined over 30 years.
- The best caregivers are the best trained. Through the Institute for Professional Care Education we provide continuing education to our caregivers.

How May We Assist?

Since 1984, At Home Independent Living, a local family-owned business, has been serving the community with quality in-home care that supports independence and provides supplemental support to family caregivers, allowing them to take much-needed breaks from care. Our services include:

- Alzheimer's and dementia care
- Medication reminders
- Respite care
- Pet care
- Care for persons with disabilities
- Sitter services at a facility during recovery
- Meal preparation and light housekeeping
- Chaperoned transportation
- And more

Committed To Our Community

At Home Independent Living's owner, Dean Bellefeuille, has lived in the Syracuse area his entire life, and this connection to the community drives his commitment to its residents.

At Home Independent Living is proud to support our community through:

- Our free online Family Caregiver Learning Center.
- Sponsoring events that benefit seniors, caregivers and the disabled community.
- Supporting Vera House's Elder Abuse Coalition.
- Alzheimer's and caregiving education presentations to senior centers.
- Respite services to participants of the African American Dementia Caregivers Support program.

Veteran's Program

Serving those who have served our country is our greatest honor. We help U.S. veterans and spouses obtain Aid and Attendance benefits to receive care in the comfort of home.

Advanced Technology for Better Care

Technology Consulting Services

Our management team consults with seniors and their loved ones on a variety of technology solutions that enhance home care. Whether the need is for in-home monitoring or just a little guidance on setting up and utilizing smartphone and tablet apps, we can help.

Online Family Portal

Family members can securely log in to the private Family Portal from our website to view caregiving schedules, billing history and the Plan of Care. This provides a more transparent relationship with our clients.

Mobile Workforce Management System

This system proactively monitors all caregivers in the field, providing immediate notification to management of all arrivals, departures or missed appointments. The system also allows caregivers to enter activities performed, supplies used and mileage.
